2. Analysis Of Flavour And Molecular Diversity Of Kenyan Lablab Bean (Lablab Purpureus (L.) Sweet) Accessions.
3. Analysis Of Total Hla-G Levels And Its Isoforms In Placental Malaria.
4. Analytical Determination Of The Effects Of Phosphatic Fertilizers And Manure On Maize Yields In Acidic Soils In Kisii And Rachuonyo Districts.
5. Anti-Microbial Activity, Toxicity And Chemical Characterization Of Extracts Of Indigofera Lupatana Baker F. Plant.
6. Antimicrobial Phenylpropanoid Esters And Sesquiterpene Lactones From The Leaves Of Tarchonanthus Camphoratus (Asteraceae).
7. Biochemical Variations In Some Striga Resistant And Susceptible Maize Germplasm.
10. Computational Statistical Model For Group Testing With Retesting.
12. Determination Of Karate And Pyagro Residue Levels In Fresh, Black And Brewed Tea From Tea Farms In Kericho.
13. Determination Of Predator Ultrasound Parameters And Acoustic Startle Response In The African Female Anopheles Gambiae S.S.
14. Determination Of Selected Heavy Metal Levels In Underground Water And Soil And Analysis Of Water Hardness Sources In Nyatikekarungu Divisions, Migori District, Kenya.
15. Determination Of The Focal Length Of A Lens Generating Aberrations.
18. Development Of A Quality Index Method (Qim) Scheme To Evaluate Freshness Of Ice Stored Lake Victoria Nile Perch (Lates Niloticus).
20. Dynamics Of Litter Input, Retent...
22. Effects Of Conventional And Conservation Tillage On Selected Soil Physical Properties And Water Movement In A Vitric Andosol In Kenya.
23. Efficacy Of Host Resistance, Seed Sorting And Antifungal Plant Extracts In Management Of Angular Leaf Spot Of Common Bean (Phaseolus Vulgaris L.).
25. Evaluation Of The Performance Of Bacillus Cereus And Bacillus Subtilis As Test Organisms For Assay Of Tetracyclines And Beta-Lactams In Chicken Meat.
